

# Conditions for Granting the No AI Declaration™ Mark

---

## Category 1: Creators and Artists / Subcategory: Music

Version 1.1 | effective as of: 16 July 2025

### 1. Introduction

This document is a supplement to the general conditions of Category 1 “Creators and Artists” and defines specific rules for the subcategory Music. All provisions of the main Category 1 document apply, complemented by the conditions set out below.

### 2. Typical AI Applications (Prohibited)

Within the Music subcategory, the following uses of AI are considered prohibited, among others:

- generating melodies, harmonies, rhythms, or arrangements,
- automatic composition and score creation,
- generating vocals, voices, or sound effects,
- mixing and mastering based on generative algorithms,
- automatic songwriting using AI.

Clause: the above list is illustrative and not exhaustive.

### 3. Permissible AI Applications (Auxiliary)

AI may only be used for technical and organizational purposes that do not affect the content or artistic value of the work, in particular:

- cataloguing music files and metadata,
- managing sound libraries,
- applying noise reduction, pitch correction, or sound stabilization, provided these are deterministic processes,
- checking the linguistic correctness of lyrics (spelling, punctuation), including the use of AI – without interfering with style, content, or meaning.

### 4. Specific Rules for the Music Subcategory

- The creative process of composition, arrangement, and performance must be entirely human-made.
- Works created with the use of AI may not be presented as covered by the declaration.
- AI tools may only serve as auxiliary instruments – organizational or technical.
